

ASCEND ONLINE Values

Market Commentaries

The latest aircraft values and lease rate trends accompanied by expert opinion and analysis from the respected Ascend consultancy team. Keep on top of the most recent developments and changes in the dynamic aviation market with Ascend's suite of Market Commentaries for **commercial aircraft**, **business jets** and **helicopters**.

Benefiting from Ascend's 25 years experience in aircraft valuations, asset management and market analysis, each Market Commentary is a specialised report exploring global market trends, recent transactions and expected future activities.

Discover

- Specialist analysis of a specific aircraft type and variant
- Authoritative insight into short, medium and long-term market trends
- Bespoke commentary tailored to each aircraft type and variant
- Transaction data, storage numbers, availability, future activity, sales and leases

Support investment strategies

- Evaluate new business opportunities and make more informed aircraft finance decisions
- Improve internal knowledge and increase market awareness
- Review multiple asset classes for aircraft investment or research purposes
- Benchmark internal opinion and manage risk effectively

Key features

■ Quarterly updates

Each report is updated quarterly to reflect the most recent market and economic developments

■ Portfolios

Includes over 45 major commercial aircraft types and variants and the most commonly traded business jets and helicopters. Aircraft available include:

- Wide bodies and narrow bodies
- Regional jets and turboprops
- Entry level to long range bizjets
- Turbine helicopters

■ Access

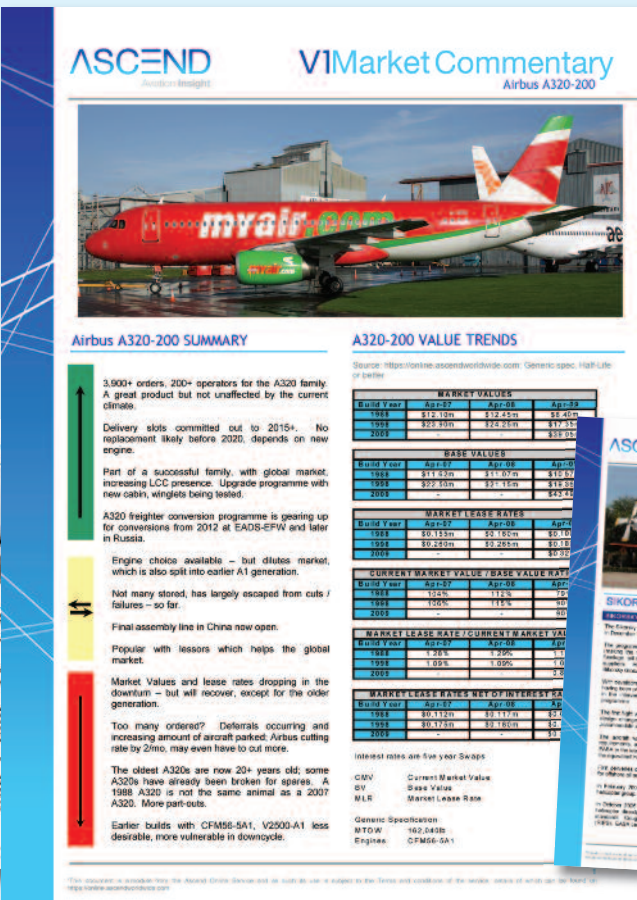

Available online 24 hours a day, 365 days a year for either multiple named users or unlimited company-wide access

“An excellent summary of key asset characteristics alongside value trends and recent market activity, which together capture all the relevant information in one source.” Dick Forsberg, RBS Aviation Capital

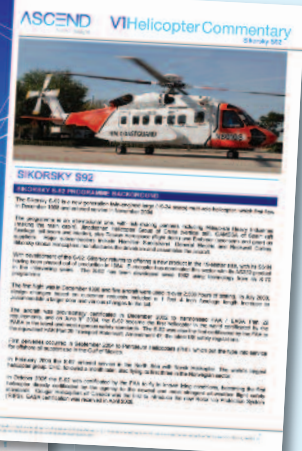

A unique aircraft-specific report with the latest aircraft values and lease rate trends

Sample of Gulfstream G550

Sample of Airbus A320-200

Sample of Sikorsky S92
